OK, In leveledit Yesturday i was able to change vehicle settings and have them apply without even changing the presets.

I changed Health settings, Points, model.

Now however it does'nt work anymore.

Hmm, I think i Understand it now, If i were to change the health on the Humvee It will only apply if i place the actual humvee and not the spawner, Thats what i was doing.

So i fugured it wasn't working.

Kinda weird though
