For those who have played it, what do you think about the new PSP GTA: Liberty city stories? I think it's amazing that they can get so much game in that thing. They say vice city will be on the PSP next year sometime too.

It looks cool. I don't like how you can't bypass updating to the 2.0 Firmware though.

It's the best game on PSP I've ever seen, but as for GTA for ps3, ps3 won't come out until 2006 so it will take a while for gta to be released as theres no word of it's development.
