I clicked on a thread and got this message:

Virus Content Prohibited

The content you have requested is suspected of containing virus material.

The policy on your active group denies access to this content.

Url: <http://www.renegadeforums.com/index.php?t=msg&th=17877&start=0&rid=1751>

Reason: The object is infected.

Virus Details: /opt/sonar/sonar_http/etc/store/113220362859: HTML.Phishing.Bank-49 FOUND

I'm behind a proxy, btw.

It's detecting the fraud phishing link that's being discussed in the topic as "virus". Simply reading the topic won't infect you though. I think your antivirus program is being a bit oversensitive.
