Just in case anyone cares, we've finally gotten the site moved and working again. You can use the same URLs to visit it as before; www.renalert.com and www.apathbeyond.com. Don't use the dynamic6.gamespy.com/~renalert address, as it's not there anymore.

Just thought I'd let people know.

I'm glad, I was saddened when it went down for so long. Thanks for the information.
