Alright, this is where rate the signature above ours on a scale of 1-10.

10 being the highest and 1 being the lowest.

And please remember to state a reason why you gave the rating you did.

There are rules to this:

Rule: Post only ONCE A PAGE.

I will repeat.. - POST ONLY ONCE A PAGE. -

Get it? Got it? Good.

They are okay looking, when I entered the URL nothing came up yet. You must still be working on the site. I'll go 5/10 in terms of how logos go. As for your emo sig I give it a 9/10.

I have a new signature, so I figured I'd post in this section again.

It's an MS Paint signature, dude. I can't use all of those fancy Photoshop features. Not only do I use MS Paint, but I don't know how to use Photoshop, and the 30 day trial has been up for atleast three or four months now.

Use the Gimp. It's just as powerful as Photoshop and it's free. If you can't figure it out, follow tutorials and ask around. You can't really learn by staring at the interface and thinking "I don't get this, MS Paint is my option." It is seriously worth using a much better program. MS Paint really isn't for graphical editing.
