lol your only saying this for the post i made on yours... which is true. why join a clan that has you (clan skipper)?

ours is decent. with many members who are all always on everyday for a good amount of time (1-5 hours) we dont fight alot
and we are well respected... unlike your clan

A small update.

RM has merged to form EVO-RM.

Their temporary forums are: <http://s14.invisionfree.com/EvolutionRenMasters/index.php>

Dave (ghost) is no longer with RM. If you have any questions their new IRC is [#EVO-RM](irc://troush.com)

Hello, I would like to tell you all something, I run RenMasters for 1 year, in that year our clan did quite well and our one 14 player server did well, This idiot posting this topic Daves an invalid, He is nothing to do with the New Evolution-RenMasters which i am now running, He is a disgrace to ren, a liar, and a cheater. He is giving out the wrong signals altogether and i would appreciate it if you took no notice of this idiot. He currently is trying to steal my Evo-RM members by msging them on IRC and advertising other networks. Yes Evo-RM is currently looking for staff and with our new site and forums underway i will post the link here for you soon. I can assure you we are all nice and friendly people who just enjoy playing renegade. I have just bought a 10 player ClanWar server:

Hostname: a000000rd

Server Name: ==*EVO-RM Private CW Server*==

You can also find out 16 player AOW server on the WOL list.

Hopefully another server will be goign up very soon as our money will be coming in a little faster!

The Password for the private server is frequently changed but if you would like to use it on a regular basis please email me and i would gladly let you use it. I do hope Dave4989 has not given you false impressions of Evo-RM and i would enjoy to see any of you to visit us on IRC:

Network: [irc.LTrough.com](irc://troush.com)

Channels: [#EVO-RM](#) [#EVO-RM1](#) [#EVO-RM2](#)

Thanks for reading.

clicked the first URL in the first post=
www.renmasters-team.net
This page is parked free, courtesy of GoDaddy.com

Then clicked the URL in the sig -down too. LOL

Now clicked the link to the invision free board...down! Only a NON-clickable Hyperlink to LTroush=
<http://www.erm.ltroush.com/forum/index.php>

...and finally some1 who accuses another of cheating and other bad things... I don't care if it's true or not, but this thread is not that kind anymore it was meant to be at the beginning.
