I look around for cool free games. And since I have gotten DSL, my selection has grown alot I found these 2 first person shooters and I just thought I would post them, and maybe get some more players www.warrock.net

http://www.planetwolfenstein.com/enemyterritory/ some of you may think these are OLD but as I said, I just got DSL. If you try these games post your opinion on them.

Wolfenstein: Enemy Territory is a great game. If you like objective-based style games and you love the way Quake 3 plays, then you'll definitely like this game.
