Ive installed renegade first time on this pc, (its a brand new pc)

Ive installed Renegade > Patch (FROM THERE SITE AS WELL IVE TRIED) > no cd > RG

in that order ive also tried installing in another directory on my hdd, and playing without no cd installed

There is no cheats in the data folder, as its a new pc... no skins nothing.

the problem is in game i get no damage, when i shoot something with a tank/inf there is no damage, same with the repair gun.. basically can't do anything...
ive reinstalled 6 times, deleted the westwood folder etc..
any ideas?
