I suck at almost everything...so i`ll be entering with Renegade, at which i suck 1 or 2 points less

Well, guys and galls, will you join and what game will you be playing?

Catch you on the battlefield

A bit late for bugs eh?

Someone should make a list for renegade anyway, maybe we can get EA to fix bugs that others cannot fix, within the engine.

Bug report for Renegade:

STOP THE CHEATS.

Other than that, blue screen, falling into nowhere, PT bug, all exploits (most importantly name exploits at the moment), ...

Get real people... EA just dropped support for Renegade WOL and handed it over to Xwis. They won't change anything anymore. This is just for zero hour and future C&C-games...

That kind of stuff cannot be fixed without the source code I believe.
