Tree huggers that listen to elevator music may not like this.

This is to cool. I have 2 videos of Metallica live in Moscow I watch everyday, I think I have another video to add.

Ok, further developments in this story. Today, a God dang girl told me that the atom bomb is based on the splitting of an atom. The nuclear bomb is based on splitting the nucleus of an atom. I admit this has some logic. However, due to the source I remain skeptical.

This is what makes up a God dang girl

It's an inside joke, my bad. Who sings the song with a speed metal guitar accompaniment?
