Put them in your Data folder (C:\Westwood\Renegade\Data\ by default)

PS: W3D skins are evil, they harm your Renegade!

There is no such thing as a W3D skin/Texture. The W3D files are either models or animations with textures applied to them, which Renguard does not let you use.

Most people call it a skin, and download it thinking it's a skin, and seeing he is a n00bie :\
