Are you talking about UltimateUnwrap, greenhaze? It doesn't export to max I don't think. You can only get the converter from Abjab for beta testing, and it's not fully functional yet. It works much better than I expected, but I haven't heard from Abjab in a while. [December 05, 2002, 14:45: Message edited by: SomeRhino]

Nice But wouldnt it be better if the tesla coil had a low rate of fire, but very damaging bursts, like in the original RA? Or are you going to fix that?
