Yesterday, we got a nice 'award' for the moddb award 2005:

Quote:Editors Choice: Most Hyped CnC Reborn

Why? I'd be lying if I didn't say dystopia - but lets share the hype around and give another mod a chance and Reborn is that mod. It seems each week this team pushes out an update of some sort. Constant updates, constant dramas.. never boring, a bit like the classic TV show "days of our lives".

Still this mod looks fantastic, the team has done a great deal and i'm certainly one who wants to see it released! "

So I guess it's time for the whole staff to say something, shall we? ok!

Thank you so much to all our fans!

And now to go on with the updates, here are some in-game shots of our lightmaps done on the Renegade engine, some of you already saw those, nice isn't it?

I don't know if you realize it or not, but "visual delight" and "most hyped" aren't really awards. Awards are things like:

Top 15 Mods

Top 5 Upcoming Mods

Top Mod by Genre

Action

Adventure

Driving

Puzzle

Role-Playing

Simulation
Sports
Strategy

That kind of stuff is something, at the least, that I consider an award worthy of mention. The editor's choice stuff is a foot-note they throw in at the last second, and is usually something of little merit that they tack on just for extra ideas.

I noticed that too. Well maybe Moddb admins tough it would be a bit hard to do that to a mod.

Don't forget "most time spent downplaying other people's success".

Or, in your case, time spent whining about what others write.

the lightmap whatever stuff makes those models and such look really cool. gives it that dark, contrast-y feeling that i got out of tiberian sun.

Editors Choice? Who's the editor. Whats so specail about his choices. What about something like Renardins choice or ACK's Choice or Comrads choice.

But best of all Buckery's choice .
