According to XWIS stats, there have been just over 31,000 unique serials that have logged into XWIS since they took over Renegade. Long live Renegade!

I think they cannot release patches...

Great going, Renegade! I noticed more and more players using RG lately (though I'm very impatient to have the new RG so it becomes 99 % useful again).

I don't see why they can't release patches (such as CP1, CP2 etc from BHS) via the auto-patching system, as it is a WOL clone surely that ability was also cloned, and even if it was not it would be fairly simple to add I expect.

It would certainly increase peoples awareness of CP1 (and CP2 when released) if it installs by itself

Good news

Meh I like a aow server without drop mods or other modified stuff

I wouldn't like that idea, because some of the modifications that it brings with. It would be better if people had the choice to pick wheter or not to install the update.

New maps is a good idea though.

USA. While I had better ping on Euro, there was not a single server I didn't get banned from for "cheating".

He got banned for being a total ass towards moderators. You also didn't seem to like our no swearing rule, tough luck. Then he came to our forums and abused them.

Buckery, who the hell are you? Do you know anything of what happened? Go away.

To put it with a quote of AirCraftkiller:

DJM: How did you even get caught up in this? A while ago I thought you had some kind of common sense, but then after a bit I remembered that you were the shit-for-brains that went to a server and bitched out the administration there, then whined here when you got kicked for breaking their rules. So let me rephrase this little commentary about you: I know how you got caught up in this e-terrorist shit, you're an idiot and you probably couldn't help trying to find a way to make yourself look worse than you already do.

That mod DEETEE said something about my grandma, you know the usual "I'm too stupid to come with anything remotely funny so I'll use the classic ur mom jokes" or in this case my grandma, so I said "wow that was really funny" at which point I got kicked. Good moderation you got there.

Goztow doesn't seem to be able to get it into his thick skull that after I was kicked the second time I said to the mod "fine, I'll stop", and didn't swear after. He also can't seem to come up with something original himself, all his insults are either petty schoolboy attempts or quotes of somebody else.

Quote:He got banned for being a total ass towards moderators.

Quote:I got KICKED for sarcasm

Well done for completely missing my point..... yet again! Your message board incompetence is an inspiration to botched lobotomy patients everywhere.

Since you don't seem to be able to differentiate between the two I guess I'll have to explain this for you.

I know why I was banned, and that was because you didn't like the way I posted on your forums. Go you, I couldn't give less of a shit about that. My point was, dullard, I was kicked for sarcasm.

I lose count of how many times I've told you to read my posts yet time and again you neglect to do it. Why must you be such an ignorant little shit? I've met decomposing dog carcasses that are less offensive to the senses than you are.

Calling you dull is a gross underestimation of just how tedious you are. You have the personality of a damp sponge and the appeal of a moldy, sweaty sock.

In future, if you have something to say, just shut up.
