Hey everyone,I finally got most of my site up and running,and I have 20gb storage and 1000 gb bandwith.I'm looking to find as much renegade maps,skins,mods,and whatever to host on the downloads section.I wanna have kind of a renegade db and place people know they can host their map,and find their stuff they need.If you want me to submit a file to be added to the site please go here :

<http://s10.invisionfree.com/BlazeMods/index.php?showtopic=64>

Please read that,and make your own post:).PLEASE REGISTER IF YOU ARE GOING TO I WILL PROBLEY DISABLE GUEST POSTING SOON.

Site: <http://www.blazemods.com>

Downloads Section : <http://www.blazemods.com/downloads/index.php>

If there is not a section for what you have I can make one:P.

I am also looking for sites to link to,and will be getting a link button soon/redoing the links section.

I'd like to host some renegade stuff too. Not just maps for the tiberios site (the "more maps" section where I feature maps from other authors), but the unleashed network will be hosting renegade maps too.

Alot of renegade sites to host stuff are starting to pop up .It's a good thing mods/maps need propley any support they can to keep the community alive and kicking.More the better.

As will most Renegade Site, I offer my services for the forums as a moderator.

Im a Moderator at Renhelp.co.uk, RenHelp.co.uk Forums and RenegadeHelp.com

There likely isnt much need for one at this point though.

Off Topic:

The gray on gray isn't the thing that's tough on the eyes, I think it's more of the peircing blue on the site.

Otherwise it's a good idea Blaze. I think I've seen you on the unrules site.
