My friend has this mod on his desktop. Not sure exactly if this is the one you want because there are many mods that do the same thing I think. The mod im talking about is called Carbons v3 Mod. Since im doing something now ill try to get back to post a link. If I can't ill try to get my friend to send it to me through an email.

I found it <http://files.filefront.com/Carbons+V3+Mod+30/;4689907;/file info.html>

To get it to work you'll have to pick the bots one or something. I haven't downloaded it so I don't know. Shouldn't be that hard to find the right one.

BTW,

This comes with a bunch of mods if you didn't know.
