Hi,

XWIS is currently down for hardware upgrades. It should be up again within an hour.

Maybe add this to the MOTD before XWIS goes down, I didn't know this was going to happen until it went down.

That's a good idea. We did announce it on Strike Team a few days ago but not on other forums (until today).

Wonders if an American hour is like a European hour
or if an American hour is 7 times longer

Not to make a stink, but something like this should have been clearly announced. No offense, but i do not think a majority of players visit the strike-team website. I daresay, some do not even realize XWIS is a fan ran server that took over the function of WOL, given it is all seamless.
