get it from <http://www.sourceforge.net/projects/rentools/> Only 2 new scripts, one for playing a cinematic on zone entry and one for playing a cinematic on object death. This is mainly a maintenance release to get some work I have been doing with the script commands available to the public.

I'm not that good @ C++ but I'm learning how to code scripts. The code r0xx, Jonathan! Great work! Dante told me you wanted to make it in Delphi(the prog lang) first. I love Delphi(the prog lang).
