If i try to install CP1. a message comes up sayin

Old File not found. However, a file of the same name was found. No update done since file contents do not match.

This is meaning the file "Script2.dll"

I have tryed reinstalling Renegade but it still will not work.

Can some1 plz upload the "Script2.dll" file so i can download it plz.

Thank You

You mean CP2? That means that you do not have CP1 installed...install 1.037, CP1, and THEN CP2--we should have a combo patch for CP1 and CP2...

[http://www.thekoss2.org/uploads/\[REN\]Tool-scripts23_for_client.zip](http://www.thekoss2.org/uploads/[REN]Tool-scripts23_for_client.zip)

scripts2.dll (English version of Ren) is in there.

You didn't update to patch 1.037. That must be done before installing cp1, Renguard, ...

www.thekoss2.org/uploads -> search for patch 1.037
