Hmm, that happens to me a lot when I am playing on unrules and I am on the Nod side. The best solution: ALT + F4, or just plain quit, because usually, it does not get any better after few games.

Teamwork with n00bs? impossible, ive been in several games, they just dont care, they dont care shit about ones warnings, and then they yell and scream "wtf" when some apc's rush and blow the crap out of PP and Refinery, with me being the only defender.

The n00bs all wanna be the "hero." They always run off in their own direction when i try to do rushes and we end up losing

Just tell the n00bs to attack the (maybe hidden...) enemy Conyard.

You don't have to be a pro to have common sense.
But then again the definition of n00bs means they lack common sense, so...

To address the question of:

gufuTeam of noobs and youaren't one?

No, I'm not. Because I have some sense of what I'm doing, and I don't drive Artillery into the middle of C&C_Field when GDI has 4 MLRS set up, I don't make stupid suggestions like The Eternal Newb "we n33d buggeiz t0 pwnzt there tanx" and garbage like that, I don't fire ramjets at harvesters...

The list goes on, but mainly, I have some kind of overall idea of what it takes the beat the other team. I can adapt my strategy to overcome theirs. I work well with team mates, and thats something that newbs just don't have.
