Keep an eye out for someone called "Uberseksi"

He's a very clever cheater. He uses reinguard but is able to get around it with cheating so !forcerg command will not work on him, he is able to do one hit kills with anything on anything.

He killed me with one hit with a repair beam, he blew up several vehicles with just one hit with even an APC

this all happened on n00bstories sever.

So keep your eyes open, and if you want my advice ban him on sight.

If you make a video showing the one hit kill thing, that would be proof.

no screenshots unfortunatley

however, there are witnesses and others who experienced the same thing on n00bstories server.

Log excerpts from renegade

Kolbenklemmer: uber is a cheater kil me with 1 shot
xyz65: uberseksi is cheating!, 1 med...1 shot!!!!!!!!!!!!!!!!!!!!

that is very intresting.

When did this happen? I haven't heard about on RG bypassers in the server in a while ...

Uberseksi is actually SoQlony. Anyone want to vouch for him? Otherwise there are lines in my logs that are very suspicious, such as:

[05:49:05] [@phpRenBot]: [19/40|60SFPS|Walls_Flying] Uberseksi killed [FC]Alexraptor (Technician/Repair Gun(Strong) VS GDI Minigunner/Auto Rifle)

There were 2-3 complaints about vehicles dying in one shot and every vehicle WAS killed by this person. Unless anyone has any real objection, he will be enjoying a ban from RenGuard.

There were 2-3 complaints about vehicles dying in one shot and every vehicle WAS killed by this person. Unless anyone has any real objection, he will be enjoying a ban from RenGuard. Another thing...this guy is NOT a SoQ member, there is a thread in the NXC forums about him, the real SoQ member's name is SoQl0ny .

uberseksi, AKA neo, registered soqiony's name on xwis before he had chance to register it himself (see this topic over on soq forums -> <http://www.sourceofquality.nl/Forum/showthread.php?t=3393&page=2&pp=10>)

Next time please try to post proof. It's a good job Crimson had logs of this since it was on the n00bstories server.

If you don't know how to get proof (screenshots, videos etc.) I'll happily give you details how.

Okies, ive followed this topic for a while and i think its good to tell you bit about the story

Uberseksi/ SoQlony (the fake one as Danpaul said), aka Neo is a guy who was in our clan (theKOSs2) till 2 months ago. Goztow had indeed "Uberseksi" in his signature: Neo made this siggy for Goztow. Neo left the clan because of problems with members and the clan. However he didnt left quietly. Long story but in the end it was that he crashed our server, deleted everything on it etc etc. Thats where it started.

He decided to do an application for SoQ, but that application got declined. As DanPaul said above, Neo already took SoQlony's name when WOL changed to XWIS. He only never used it. 3 Days ago he used that name and cheated with it (FR etc) He got banned on that server. IPs showed it was him.

Now I know he knows how to bypass RG. I know he has done it before with Bighead etc while he was still in our clan. Im 100% sure he knows how to do it...

Some of you may know, some of you may not. Years back (2 or something) you might have seen some guys ingame named "Plort". They cheated their asses off, kicking whole servers empty, team hampering etc etc. One of the "Plorts" was Neo/ Uberseksi.

When i read this topic i knew 100% sure its him. I also know he is cheating his ass off atm, because he doesnt like the Renegade community anymore. He cant show his face anymore without negative reactions. This is probably his last goodbye from Renegade.

oh i know allright, but one has to remember and react fast enough to get the shot, i have fraps, but it sucks up system rescources, and its non registerd version so again, one has to remember to enable and it only records for 30 seconds or so.

I just want to precise that he has never been reported cheating while he was in our clan. I know that he did some tests on how to bypass renguard but it always was in private servers, just to test if some things really work, like many do I suppose although I personally think it is wrong and if you get caught then that's your problem .

I still have "Neo" in my siggy as he is the one that made my siggy. He did very good stuff for our community but apparantly decided now he had to leave with a small 'bang'. It won't take long. If you banned him from Renguard, he'll just get !forcerg'ed and the problem will be solved very soon. I don't see him going through the very long process of bypassing a renguard ban .

I first didn't want to react on this topic, but I do feel a need now that The KOSs and my name have fallen.

Meh, thanks to those who defended me. Outsiders can't know it, but I've been away for about 1,5 months cos of having my final exams. Then I come back just to see this. Hell yeah and great. Like ppl said, my IGN is SoQ10ny, not with o.. It got taken over when XWIS came... But forget this bs and just thanks ppl for clearing this out.
