Thanks to the effort of GozTow, I should be able to update the 'news system' of the website for Friday.

I will also take care of:

- Check the links for the Previews/Reviews section.
- The Fan Site list, which is very old.
- Fix the Gallery
- Add pages with maps/skins/patches links or anything related to Renegade on Downloads category.
- Touraments section is broken. It will be fixed later with Xwis/Gamespy data.
- On forum section, I will add 3 direct links to German, French and English forum.
- On Game Tips section, I must still add all the solo missions.

I added also a custom banner for test. I think it would be a great way to promote renguard, mods, maps or anything you can think of.
That's all for the moment. Stay tuned!
