Well ive been trying to make a mod system for my channels but im not too smart when it comes to scripting...

This is what im seeing it ...

```
on *:TEXT:!add*:#: { if ($nick == Batman)
    notice $nick Usage: !add [nick] [1/2/3/4]
    notice $nick Level: 1 - Half Mod, 2 - Full Mod, 3 - Admin, - Owner,
```

well thats it... lol

but im trying to get a !del <nick> !add <nick> and a !modlist type script so if anyone knows of any please say :S
