When is the last time you launched renguard before today? The latest renguard patch is weeks old.

If you are still getting the error you can use the game.exe from the manual renguard install located in this thread--> <http://www.renegadeforums.com/index.php?t=msg&th=18641&start=0&rid=2>

Note you just need the game.exe don't follow the other directions.
