You need Renegade for Level Edit to work.

This might help:

```
[HKEY_LOCAL_MACHINE\SOFTWARE\Westwood\Renegade]
"SKU"=dword:00000c00
"Name"="Renegade"
"InstallPath"="F:\GAMES\EA Games\Command & Conquer The First Decade\Command &
Conquer Renegade\Renegade\Renegade.exe"
"FolderPath"="C:\Documents and Settings\Administrator\Start
Menu\Programs\WestwoodBETA\Renegade"
"Desktop"="C:\Documents and Settings\Administrator\Desktop\Renegade.lnk"
"Language"=dword:00000000
"Serial"="xxxxxxxxxxxxxxxxxxxxxxxx"
"Version"=dword:00010025
```
