Where do you find the skin files for renegade.I can edit them ok i just dont know where to find
them. are they in the game files?

they are all in always.dat and always2.dat

use xccmixer or my personal preference renegadeEx to extract them from the archives;

renegadeEx -> http://www.cncnz.com/files/renegade/utils.shtml#renex
Xcc mixer -> http://xccu.sourceforge.net/ and go to the utilities area
