I downloaded the renguard and tried to install it but when I went to play the game I got this message.

```
[21:48] Trying to connect to server #1...Connected
[21:48] Secure link established.
[21:48] Welcome to RenGuard , bears5150!

Check the upper renguard window (where the motd appears) when it gives the errors, it'll tell you what to do to solve it.

lol same here. Im stuck on the same thing.....

wait... did you put them in the config thing on accident like i did? check cuz ya never know when u mess up like and ur not paying attention. I did that and my rengaurd is almost downloaded completely now.
