Sorry I am not really sure where to put this so I will post it here. All I need to know is how to capitalize your name when playing online.

EXAMPLE (Not Actual nickname): panzyxxx

How would I change that to PanzyxXx ?

it can be done in wol, just make that the only wol account you use in wol, and for some reason the caps work. Alternatively, you can use GSA or renip

No, I have done it before (In WOL with using more than one nickname). I just don't remember how.

Remove your account, uncheck automatically login with account. Go to advanced game listings, fill in CaPiTaLiZeD name and password, hit that checkbox on, and login. Now it should work.
