Ok, I want to sort this out once and for all cuz I have been so confuzed and having a hard time keeping track. What are all the C&C games called, cuz I only know the names used in europe and since there is a difference it can cause some confusion. As far as I know and also in my collection are:

C&C Tiberian Dawn (Just says Command & Conquer on the cover)

C&C Red Alert

C&C Red Alert Retaliation

C&C Tiberian Sun

C&C Tiberian Sun: Firestorm

C&C Renegade

C&C Red Alert 2

C&C Red Alert 2: Yuri's Revenge

C&C Generals

C&C Generals: Zero Hour

wich leaves me with 6 games, and 10 when including the expansions so there should be 1 more game (with expansion) if I got the actual 7 game count (and 12 as claimed by the insidious compaby that calles themself EA) correct.

- btw I need to point out that my C&C Tiberian Dawn game has got additional covert mission and I can also used codes to play an additionall 4 missions not accesable otherwist -

If someone can shed some light on this, I - and others with me - will be most happy.

Red Alert: Retaliation is the PlayStation version of Red Alert.

You forgot Sole Survivor. HOW COULD YOU FORGET SOLE SURVIVOR?!?!

EA claims 12 games, but in reality it's 6 games, and 6 expansion sets. Apperantly, a mission disk with some extra units is the equivilent of an entire new game. Bah. A pox on EA.

but what's with Red Alert, Counterstrike and Aftermath? for all I know it's just Red Alert And RA Retaliation. that that's a 3-2 difference.

i'll make it clear: from Td RA and RA: Retaliatoin I have for PSX, the others are on PC.

aftermath is a very good expansion pack for RA, counterstrike was a bit less good IMO.

I didn't get CounterStrike, only Aftermath...

Funny story, I first heard of C&C RA: CounterStrike when I was in...oh...6th grade, and I thought somebody make a Counter-Strike type game out of Red Alert. I almost died with happiness.

Good thing Renegade came along a filled the empty place in my heart for a C&C FPS.

So like There is RA, then 2 expansions: Counterstrike and Aftermath. I take it the three of them didn't make it under any other name in europe or on PSX. But if my retaliation is a PSX version of RA on PC, then what about my RA for PSX? still it seems I'm missing some to call my collection complete and not to mention I would really want to play these games. That's why I'm afraid I would have to buy that 1st decade pack. #\*ù\$\$ EA(Endlesly Annoying)

It is simple: RA for PSX = RA for PC. Retaliation for PSX = Counterstrike + Aftermath combined. Enough said. The end.

P.S:

I have not played Retaliation, but this is what I heard about it.

Thank u for this clarification. I was confused so I wasn't seeing things clearly. So what is the difference between Counterstrike and Aftermath. Retaliation seems to me as big as an expansion as let's say Firestorm for TS is. I take it TD dawn for PSX consists of TD and CO, wich - including the other games - makes 6. I finally get it, thank u again for taking this question of my mind lol. So that mean I have all of them now(except for Solo Survivor). Still I will have to but the FD pack since my lil cousin was so gratefull to me to lose 1 of my Retaliaton CD's. Ok back to ren

I hope that's happiness that it turned out to be false, because Counter-Strike sucks.

Oh, it's not bad. People who play are jerks, and it can get monotonous if you're not careful, but otherwise Counter-Strike is a lot of fun.

Of course, given the choice between CS and Renegade I'd take the latter, but that's only because Renegade is so damn good, not because Counter-Strike is bad.

Besides, it's where I learned to play FPSs.

Edit: Completely off-topic, but it would be so amazingly cool if Blizzard made a StarCraft FPS. I heard StarCraft Ghost is in the making, but it looks like it's going to be released for the console only, and even then it looks like a cheap Splinter Cell ripoff...

I'm going to say three words, and then end this post: World. Of. Starcraft.
