You guys really need to fix the bug with the people running Windows 2000, because a lot of servers are kicking me because im not using renguard.

Every time I load renguard it comes up with a buffer error!!!

oops nm read to fass, sorry.  
that is for the non renguard.  
please delete this reply.  
thanks.

Yes there is, right click on your renegade icon, and click on view target.  
then click on game2.exe

that should work
