[11:05] WARNING: Model Textures (Skins) have been detected on your client! You will not be able to join a pure server.

[11:12] You have joined ~ Jelly - Sniper Server ~.

[11:12] Bad/Corrupted file game.exe has been found in your renegade directory

[11:12] You have been kicked from the server for cheating.

[11:12] Disconnected from RenGuard network

Iv'e downloaded Skins and the like just to make the game more mine and once i downloaded a m-16 modification that RenGuard did not like so i removed it However I received this message and have no clue as to why does this mean im baned? How do i determine which files are Bad/Corrupted so I may fix the problem. I don't cheat frankly because I don't no how, and have no desire to do so. Any help will be appreciated. thx

Don't worry about it, it happens when you join a Renegade server before RenGuard has finished looking for cheats. Just start RenGuard again, and wait about 30 seconds before clicking the "Renegade" button.
