another proof that some WoW'ler are really assholes ...
I love PvP but i would never even think of disturbing a funeral...even a ingamefuneral...reminds me on a german guid on frostwolf ... they want 5000g or they dont open AQ... and want to camp everyone who also wants to create the scepter...

Maybe a nice idea but these guys think their goods...well only because everyone of them got T2 or rank14 pvp-sets...

But WoW - Renegade... a little bit off-topic i think

What the fuck did they expect holding it in a open combat area on a PvP server?

Funny as hell, not to mention when the raid happened, it just showed how awesome world of warcraft can be.

Think about this ...

Real life:

I can take a pistol and give you a headshot ... but i don't do it

WoW:

I can kill you in a open combat area ... but maybe i keep in mind that you want play and have fun with your friends

Only because you CAN do something you don't HAVE to do this !

Its same like stupid little Campers in Stranglethron... they kill you 14 times and maybe laugh about you.

Think a few minnutes longer. Maybe their victim quits WoW ... and they camp other guys, they quit WoW ... in the future the ampers are then alone on the servers. Blizzard doesn't make enough profit... so they stop Support and a few years later WoW is no more

Dude, seriously. Don't try to defend a funeral that took place in a fake online world. The people who started the funeral even made a topic on their realm specific forums that they were going to have tons of people in a PvP enabled zone. The people who attacked them had every single right to destroy the so called "funeral" considering that they were told that there was going to be a huge gathering of the opposite side. More power to the attackers in my opinion.

A funeral in an online game is just as stupid as a wedding in an online game. And it's retarded that either of those actually do happen on a regular basis.

[EDIT] Oh, and your little comment about open PvP, simple answer. If you don't like it go play on a regular server. PvP servers are made for people who enjoy attacking people of the opposite faction on sight.

Are you sure this wasn't staged, like Leeroy Jenkins? Cause like bigjoe said, they publicized a funeral in a PVP area pretty well. If none of them expected it, they would all be idiots.

SpyGuy, you'd be correct on your last assumption that they are idiots. This definitely wasn't staged in any way.

[EDIT]

And no W0dka, I never tried to kill Thrall on a PvE server because I was a Horde character. But that's besides the point. PvE servers are made for players who want to participate in more game environment related events while a PvP server is designed for people who want to have the fun of open and unexpected PvP combat with the opposing force. If you join a PvP server expecting sympathy from the other faction when someone gets the jump on you then you need to quit your bitching and go find the right server to play on.

No, this is very real. And don't blame me for it being old... I just saw it so it's new to me.

Pretty amazing that like 7 guys were able to kill 30+ people easily.

This is more funny IMO: <http://hamstring.ytmnsfw.com/>
Especially at the end, when the guy throws his headset down and walks away, "shit!"

There were two factors that could have/did come into play there:

1. Surprise.
 2. Higher levels. As I believe the case was here, as I read in the beginning that apparently they were low leveled characters at the funeral.
