Deadeye is pinned and I have to get him out. He is on the East side of the village in a fancy hotel. GEEZ! I keep running into barricades and there does not seem to be any way around them! How the hell do I get through and finish this level?? Thanks for the help. Norm

Shoot, shoot, and blow up, and shoot and blow up and shoot. Go commando with your biggest gun and kick Nod's sorry little rear end with an iron boot.
