maybe one of the best videos i ever seen on the net ^^

portable Ob...mhm...i try this in my next Renegade match

think of it:

GDI steal and hide the Obelisk....

Nod brings the obi right to the GDI base..and enjoying a firefight between AGT and Obi...funny

In Germany we have some toolstores they advertise with

"alles in Obi" (they calling themselves "Obi Baumark")

everytime remember this if you buy inside a Obelisk of Light
