my friend cant play renegade anymore.

what is a:

renguard

crc mismatch error?

that is why he cant play anymore. can any of you tell me how to fix that.(we already reinstalled the game 2 times)

Try deleting everything in that directory then reinstall. (It sounds to me like your friend tried using cheats and forgot which ones he put in there.)

You want the RenGuard help forum, not the modification forum.

crc mismatch means that both game.exe and game2.exe are the same file (both Renguard).

Only game.exe needs to be renguard. game2.exe needs to be the actual game.
