I'm off for 3 weeks for study leave. Go back on the 12th June to start A2's for 4-6 weeks (forgot the specific time period). Think I'll be breaking up around 10th-20th July until September.

Doesn't bother me. I have more time free than I do lessons this year (and next year) so won't make any difference to me at all

School fucking sucked, but it was necessary. Sometimes I wish I could go back to school and youth rather than the adult world of mortgages, broken appliances, insurance deductibles, and paying for your own shit.

College is the most stressful thing I've had to endure in my entire life. Breaks from it are great.

No, he's probably a 16 year old that just hit puberty. You know that 8 year olds think girls are 'gross'.

Give it time, you will look back and consider school one of the easiest times of your life. (Don't take my word for it, give it a year or two)
