I'm sure there has already been a post about this, but I don't have the time to look it up right now sorry

Well I start Renegade as usual and all the sudden I get an error saying that my always.dbs is corrupted (Screen Shot Below) I Tried deleting it then reinstalling from the disk but the same error occurred. Any info on how to fix this would be appreciated. Thanks.

He said his always.dbs is corrupted not his always.dat.

They are also on game maps site try download one of these:

always.dbs (english version)
always.dbs (german version)
