Renguard will not install core patches for a multitude of reasons that seem to happen on a cycle. Last time i tried I was typing arabic. the time before that it froze. the time before that it reported a folder like sys32 or something along that line corrupt or missing. Any help?

Manually install CP1 and 2.

Cp1: [http://download.renguard.com/standalone\\_cp1.zip](http://download.renguard.com/standalone_cp1.zip)

CP2: <http://www.renegadeforums.com/index.php?t=msg&th=18892&amp;start=0&rid=4882>
