Please tell me that English isn't your first language. If it is, then you've lost complete credibility in your post.

Either way, just ignore him. There's always going to be arrogant people. You either learn to deal with them, work with them, or avoid them. I'd suggest that you just ignore him. It's not that hard, there is an ignore option on the forums.

As for him being an "enemy", that's only for those who take what he has to say to heart and vent on it every day because they have nothing better to do. You're offended by something, oh well. That's the way things work. Not everything is going to be "acceptable" to your ears. Many things will offend you. Get over it.

He's not banned because he has done nothing to warrant a ban. Crimson, usually, only bans for people who attack the forums in some way or another. Since I don't recall Aircraftkiller ever doing such a thing, I don't see him, nor you, being banned any time soon.

September 2005 is earlier than June 2006. And I believe you , Moe(I refuse to repeat the "e"), should pay attention to your English classes and learn to type. Don't put crap posts just for the sake of getting your post count from 0 to 35 in 1 day. I don't think you know anyone here well enough to flame them. You have just proved that you are a complete dumbass and if you think you are such a good "persin" do everyone good person here a favor and get out of this forum.

And we can all do ourselves a favor by ignoring Moe.
