Hi Guys

I have a problem with renegade! i used to play renegade alot and all of a sudden it stopped working! and when i install it it comes up as its loading install sheild, so after its done that, it just comes up with a error report, all my other games work. i have tried 4 other new renegade discs and it still comes up with the same. All it comes up with is a error report and says it needs to close, if any1 knows the answer to this proble, plzzz post bak thnx!!!
