My server (contary to the earlier post in "Serials and XWIS") Is still not working.

I'm getting this:

```
[23:47:47] *** Auto starting game. Type 'quit' to abort ***
```

```
[23:47:47] Initializing Westwood Online Mode
```

A lot

Infact, I've been getting that for almost 32Hrs

Help please. I am using a CnC TFD ren serial because it was the only one I had around. The server has no bots or updates of any kind applied yet (excluding V1.037 upg)

I am at my wit's end about this, at least I got it out of Gamespy mode.

Thank you in advance, CarrierII

Hmm, could you tell what you actually did and in which order?

it may be the FDS serial (the one that starts with 0669) or you're username/passowrd is wrong. check both of these.

Serial = one from my CnC-TFD. Using the serial changing app, I changed the serial of the Renegade game on my computer to the same serial as the server and registered a nick to that serial. I then changed my local serial back to the one I had.

Username/pass is correct.

Help still needed, I have Brenbot ready to roll as well.

NO it looks like:

\*threatens to post the whole log\*

20:26:02] Initializing Westwood Online Mode

[20:26:41] \*\*\* Auto starting game. Type 'quit' to abort \*\*\*

[20:26:41] Initializing Westwood Online Mode

[20:27:19] \*\*\* Auto starting game. Type 'quit' to abort \*\*\*

[20:27:19] Initializing Westwood Online Mode

[20:27:57] \*\*\* Auto starting game. Type 'quit' to abort \*\*\*

[20:27:57] Initializing Westwood Online Mode

[20:28:36] \*\*\* Auto starting game. Type 'quit' to abort \*\*\*

[20:28:36] Initializing Westwood Online Mode

etc.

No can do, I don't have control like that. ./

I'm going to use my client serial and my own XWIS nick, cos those two are definately valid.

I want this server....

hosting a server w/o administrative control?

get administrative control and reinstall the FDS. last option if the FDS serial, username and password are correct.
