You fail at life, sir.

Renegade 2 is never going to be released, because it was a Westwood project that was butchered by EA. If EA really wanted to create a Renegade 2, it would already be released. Renegade itself has been abandoned by EA, leaving XWIS with the responsibility of keeping the servers up.

Besides, if they DID release Renegade 2, what would it be about? Would it be about Tiberian Sun? Oh wait! Reborn is already working on that. What about Red Alert? A Path Beyond is already working on it.

Renegade 2 is never going to be released, because EA is run by a bunch of money-grubbing corporate whores. They saw that Renegade wasn't popular to begin with, so the idea of continuing the RTS-into-FPS strategy was abandoned. End of discussion.

Good God, you're just a brand new type of stupid, aren't you?

I'm not even going to try to decipher that nonsensical gibberish you posted, as it might cause my brain cells to cry out in pain and ask for a speedy death. Instead, I will simply post the wisest words spoken on these forums.

What are you, retarded?!

He's not a Renegade hater. If he was what would he be doing on WWW.RENEGADEFROUMS.COM? He's a realist. Renegade 2 will never happen, because there's not enough money in it. The only way it'll happen is if it's entirely fan built. Although that's not impossible, it's pretty unlikely.
