This server is full of wussies. I am on GDI, NOD is ahead in points, but the only building left is the OB. Everyone on NOD votes to endgame and go to the next map. They win based on points because of this.

This just happened 10 minutes ago. I hope every cheater in the world visits that server and terrorizes everyone there so no one plays there anymore.

Unbelievable.

It's not the fault of the server, it's the players who play on it.
