Hi there, a long time ago i use to play this game online. I loved it and loved how it played. However i have just recently found my game cd's and have no serial keys for the game Is there any where i can legally Download a serial key or download this game (via credit card or something), i can't do ebay and there are no stores that have the game, other than paying for an expensive pack with like 12 other CnC games...

Thanks for helping!

I have a friend who hasn't played his game for a good two years, if no-one else manages to help, PM me and I will ask him if he is willing to sell the serial.

If you can find that "C&C collection" that was previously sold, you can get Renegade and a couple older games for \$20. I saw it at Best Buy a couple weeks ago, so you may want to see if your local store still carries it.

Many online stores still sell it for 5-10 €.

This is amazon (UK): http://www.amazon.co.uk/exec/obidos/ASIN/B0009J1JK2/sr=1-4/qid=1150181050/ref=sr_1_4/203-4201015-1359163?%5Fencoding=UTF_8&s=software&v=glance

Excuse my rather sceptical outlook, but this could be someone fishing for a free serial because they have been banned by renguard. If Crimson confirms that this isn't the case, then I will PM you a valid never been used serial that I have from a spare copy of renegade (I bought two extra copies after one of my discs exploded in my drive).

Well, if you live in Guyana, you could just use google to find a serial that is not in use. I don't know exactly how you would do this.

What is this google you speak of?

I just made a quick look yesterday and saw a number posted on the page, no downloading virus, trojan or malware needed.

This is totally illegal. Moreover, the serials you'll find on google are probably banned.

Come on Goztow, thats bordering on negative skepticism. Piracy is perfectly legal in Guyana. In fact, they have a television network based on a pirated satellite feed.

Off topic, I have a song I picked up in Guyana I wanted you to listen to. It sounds like the old Soviet Union National Anthem performed by a Russian born James Earl Jones. It is definitely an English version of an old Russian pride song. It's catchy too. I tried to upload it last week but it exceeds the limit.

"Long live our Soviet mother land, built by the peoples mighty hand. Long live our people, united and free. Strong in our friendship, pride by fire. Long may our crimson flag inspire, shining in glory for all men to see"

When I say English version, the fellow singing and his chorus of back up singers are VERY RUSSIAN.

JPnod is still around.

And these forums are not located in Guyana. I'm sure the general agreement that you clicked "I agree" when joining up warned you not to proclaim illegal stuff.

Just give me your Credit Card details and I will send you one of my original serials. For example, I can send you a serial from 2002 -with this you won't get the "CD authentication failed" problem.

Keygens are illegal and by the way, EA has given out their serial database to Strike Team. I don't think that anyone with an invalid serial can join WOL. I don't know if GaySpy is based on this DB too...
