I've played with him before, he's just another Renegade player. You don't see anyone in the MP or Unrules servers going all fanboy on me because I'm on these forums, do you? You also don't see me posting topics about how I played three or four matches with Gbull in Renegade.

Its not being online Xwis that makes you a legend, its being a telented person who is involved with the community and done many good things with/for the Community and has been apart of it for along time.

For Example Whitedragon or Warrento.

I saw a real legend of Renegade a long time ago un the unrules -Newmaps server=

PlayerName_Get_Object= djlaptop

And I have seen him only about 5-7 times on WOL since I play Renegade on UN. This is for nearly two years now.

Who?

I mean, there are tons of ppl that have played this game everyday for the past years. Funny side note is that some of them still act like real n00bs after countless hours of playing this game. I guess some ppl just don't have it in them to be good players.

Hmmmmmm speaking of legends... does anyone remember Realnoob, LtPatch, Fearhq, Edwardckw, dosuer57 or UKstyles? (ukstyles mainly messed around in games he was a good laugh but not a legend) They were all around when I was challenging for the number 1 position (november-ish 02) in the ladder, got to 9th that made me happy enough though

Lurker (UKsrene) your a legend for most of the wrong reasons (j/k)
