Actually, you'd be surprised at the amount of cheaters that admit they cheat. The last cheater I caught was running around saying his renegade had a "glitch" where if he touched a nuke, it would instantly disarm.

Lots of em do it after they're banned too. Bungie has a lot of "Whaambulance" mail that they post on their Weekly Updates.

There are tons of people who will admit to cheating.

One of the things I do not understand is why alot of cheaters just run out destroying everything with their Pistol in a huge public server with abunch of moderators in it.

Do they really think they are not going to get banned very quickly?

it was not them, they would never stoop to degrading Renegade like that, more than likely it was their little brother who was being a jerk, or their dog who accidentally pasted the files while jumping on the keyboard, or even RenGuard, cos we all know that it is a spyware laden program that imbues the user's system with a plethora of evils

Well, If you wanna get Technical, he didn't admit it. He said he deleted the hack. But he didn't say which one. For all you know he deleted a hack for some other game. Or burned a Hacky sack O.o

Actually, it's an inside joke referring to sunami3. To answer your question, he's not that really retarded.

You gotta give 'em some credit for being honest. I hate the ones that get 20 kills in 2 minutes with a repair gun, and when you accuse them of cheating, they say "OMG NO UR JUST MAD CUZ I PWN J00!!!!111". Do they really think that people in the game wont notice the cheating their doing? I never can figure it out.
