What would the person look or smell like?

I've noticed on the internet I've seen alot of sick stuff, so I was just wondering what you think the internet would look and smell like if it were a person?

An obese, balding, 60 year-old, married man. His interests include scat, children, and Japanese schoolgirls.

When I saw this title, I was like wtf? I don't know how to describe it well, but the internet is something like 70& and 30% non pornographic material. (don't quote me on those numbers)

I was gonna write a description, but someone else wrote something more fitting... nearly 2,000 years ago.

Revelation"This title was written on her forehead:

'MYSTERY
BABYLON THE GREAT
THE MOTHER OF PROSTITUTES
AND OF THE ABOMINATIONS OF THE EARTH.'"

Lol. History is awesome.

PS: Based on the descriptions elsewhere, I would assume she smells like blood, cheap liquor and latex.

I recall it being vianet as well...

You know, when I get banned from a place, I realize that I'm not wanted back there, so I dm't keep going back, but doesn't seem to get it...

Back the the original question:
It'd be a whore, but a nice whore that's there to comfort you when you're sad, quote useless wikipedia entries, have spelling skills to rival Moee, and associate with arguabley the stupidest people in existance.

Did I meantion lots of anime and time-wasting? Oh yes, there's that.

This calls for Internet vs Real life. Because, you can pretty much see that the internet would fight stupidly, fight with and against stupid people, steal, and generally be useless.

I say the internet would be a strange looking guy in around the 40. He works by day as a librarian, but when the library closes he goes on a killing a spree.
