ABIT n00by!!!!!!!!!

that is extremely n00by and would make the game very boring to the hosts team; there'd be no challenge.

Because, it's a stupid idea, under-handed, and will drive away players faster than adding fan maps in the rotation.

Anyway it is the worst tactic ever, I hope to god I see you on a server one day so I can kick ure ass.

Well, if there's any sense of discussion left here I think that kicking people for no good reason will make people pissed off. Then they will get other people to boycott the server and it dies. GG no one wins!

This is to Torn, Ok pretend you are the Host, what would you do, ow wait you said so on your last forum, ok, but if you were, or are a good host it would only be normal for you(the host) to be the victor and have the upper edge. Why not its your game and thats how the other players get better at the game by learning from their mistakes, which I don't think you have learned form on this forum. LEARN!!!!!

If I had a Renegade server of my own, I would make a special tunnel that goes under the map that links the bases. The entrance would have a visible walk through wall that you have to know the exact location of. It would be awesome.

You've been here for two or three months and you've managed to surpass me. If you're *really* offended, which you aren't, you could always post less, all you have to do is just stop posting the stupid nonsensical shit that no one cares to read.

ie responding with "lol" to something someone said.

i wouldn't kick a player just because they play good, at the most extreem i would move them to the other team. but first i would ask them, and i would only do that if the teams ae very unbalenced.

but i would kick them if they were doing too good as in they get a pistol out and take 100 health from me.

i mean, i im not really good at renegade compared to other players but just because i suck don't mean i should kick them.
