i have changed the the valuesbut i needed to make a new vehicles(GDI)because if you want to
edit the original it needs a name so i type the name of the original file Vehicles(GDI) then i had 2
files of Vehicles(GDI) i deleted the first one so i only had my own and it works but is there not a
way to edit just one you normal see so that i dont need to delete the first one

Just add it to an empty slot.I think there ar max 9 Slots and only 7 or 6 used.
