FDS 1.1???????

you should have 1.037

also, dont run a slave server, copy and paste the directory and run another master, else you wont be able to run bots on it

I think he means the BHS version of RenegadeServer.exe,

it allows you to set the CPU priority + cpus.

I think that this is what I'm looking for (see my topic "priority")? Got a download link?

Got SS CP2 installed but it doesn't put priority high automatically.
